### **DETAILED ACTION**

The finality of the previous office action is hereby withdrawn.

#### ***Claim Objections***

Applicant's argument regarding the duplication of claims is persuasive and the objection is removed.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Donald Hanson on 1 December 2009.

The application has been amended as follows:

#### **IN THE CLAIMS:**

Claim 1, line 14, claim 2, line 12 and claim 7, line 9, the limitation "extending" has been replaced with - -the main axis of which extends- -.

The reason for the change is to clarify the structure of the device and overcome the art of record Johnson (6,076,543).

The following is an examiner's statement of reasons for allowance: None of the prior art discloses or renders as obvious "the base member in the form of a frame comprising a plurality of lateral rails the main axis of which extends in a direction orthogonal to the lines" in combination with the rest of the limitations for claims 1,2 and 7. The main axis of the rails of Johnson extend in a parallel manner to the lines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
